For our Canadian Friends

We are pleased to annonce that DLMS will be broadcasting our sale live so that you may watch the sale and bid online, live with DLMS. Also Cody Copeland and Mac Stout, two of Canada's best, will also be in attendance and would be more than happy to discuss any of the sale offering with you.

Cody Copeland: (403) 877-0799
Mac Stout: (403) 913-9453

We will have a trailer going to Brandon Manitoba after the sale.

Trucking not exceed $300/hd.

We will assist with other delivery arrangements.

Busy cattleman buying service

If for some reason you are unable to attend the sale, please call and tell us what you are looking for and we will buy for you with a 100% satisfaction guarantee.
~Thank you!
Stanley: (563) 419-2444

Liability: *All persons who attend the sale do so at their own risk. Neither the sales commission, management or seller assume liability legal or otherwise, for any accident that may occur.*

Welcome to the Sale

We would like to thank everyone for your past support and your interest in our program and taking the time to go through our sale catalog. I have been on the same farm producing seed stock for over 60 years. Our repeat customer rate speaks to the quality of the herd, the way in which they are represented and the manner of fair business the we have practiced. We are proud that the quality of our herd has attracted cattlemen from around the globe.

90% of our cattle sell to people that I have never met. They call me on the phone, we discuss their needs and we deliver. I always tell them that if they do not like the cattle when they arrive, to leave them on the trailer. And the trailer always comes back empty!

Thank you and God Bless,
– The Stanley Martins Family

Stanley Martins Family

Alvin and Jazmine

Sibelle Pol Synergy

ASA # 3890151

Sibelle Pol Synergy sold for $62,000 as a yearling to Virginia Ranch. A true living legend! The six bred heifers, sired by Synergy, that sold in the Western Harvest sale last December averaged $29,000! Many of the bred cows carry his valuable services.

Virginia Kolette
$57,000 top selling daughter of Sibelle Pol Synergy and is the dam of $125,000 Midas.

LOT 1A

Lot 1A: Choice of any female born on or after Jan. 1, 2025

Over 200 Fleckvieh females to choose from!
All of our future donors are in this group!

LOT 1B

Lot 1B: Choice of any female born prior to Dec. 31, 2024 which includes all of our donor cows!

Over 150 to choose from.

**Should any female selected have a calf at side, that calf will remain property of Stanley Martins. Payment to be made at time of sale. Selection to be made by Dec. 31, 2026. Please decide in advance which lot you prefer. Successful bidder will have choice of Lot 1A or Lot 1B after which we will sell whichever lot that remains.*

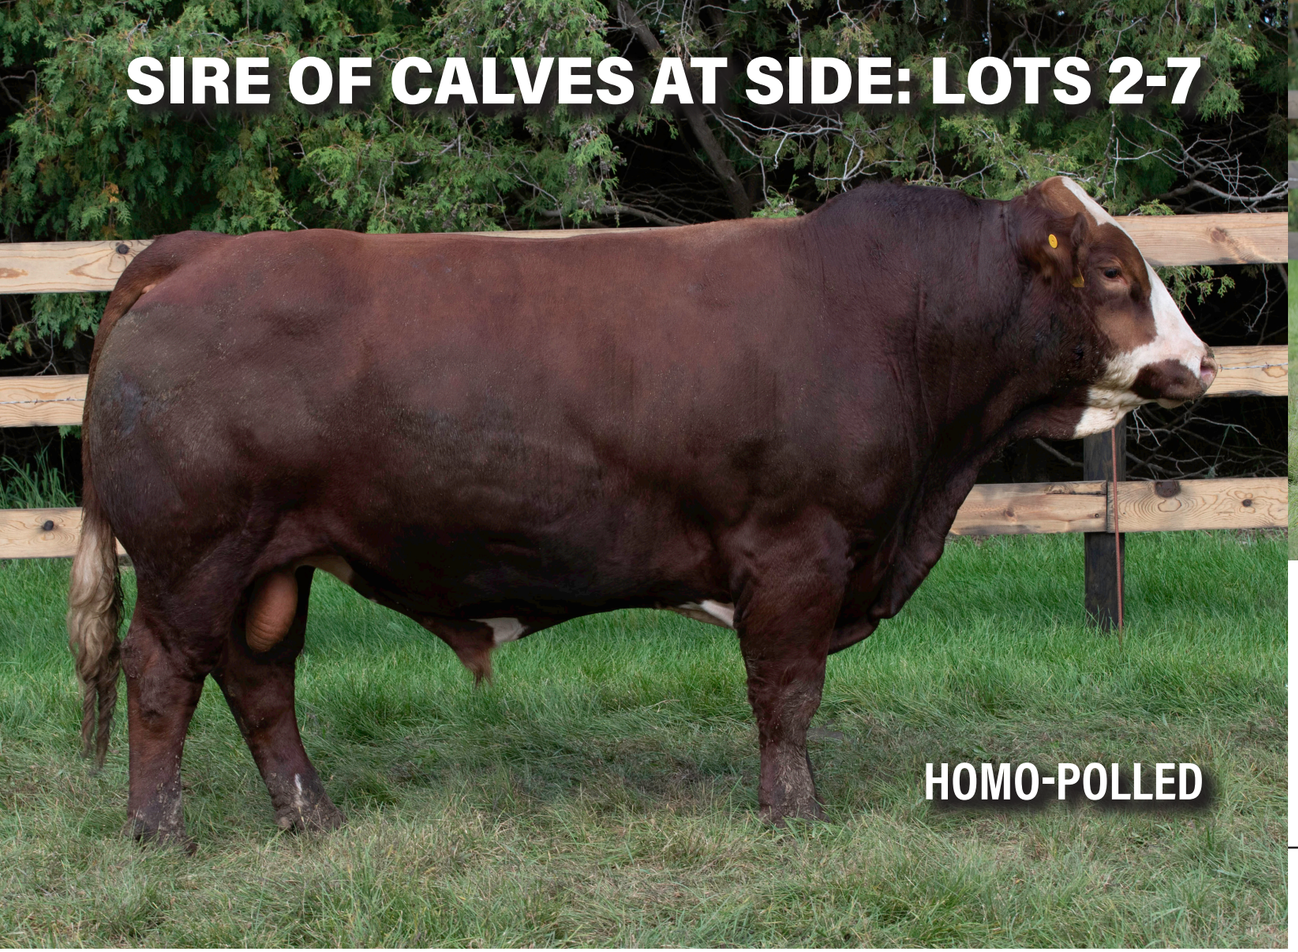

Let's get this party started!

Golden Dawn HP Cavill

REGISTRATION #: 4347824

Silver Lake Jackson

REGISTRATION # 4416340

Silver Lake Jackson sold for $160,000 as a yearling and has impacted the Canadian Fleckvieh world like no bull has ever done before! His first sons that sold at auction averaged over $50,000 and just this last March a Jackson son sired the $330,000 WJS Texas Mickey.
We purchased the first cane of Jackson semen, that was sold in the states, and were excited to get thirty-one heifer calves and one bull from the first two IVR that we did.
This sale will feature the first nine, Jackson sired, bred females to sell in the states and they are impressive! Most of these heifers were born late April, so they will be around 19 months of age on sale day. They excel in foot size, bone and flexability. Most of these heifers are out of one of the most prolific donors that we have had to date; OSF Ms Hexagon ISB. Prolific embryo production is quite heritable. Jackson is going to leave an indelable mark on our herd going forward and he can do the same for you!

Over the years, I have met some great people on my trips to Canada, and Donna McMurtry is one of my very favorites. We both go back to some of the very first Fleckvieh. So a number of years ago when I was at Donna's, she suggested that I go to Andy Oslanskis, as Andy, like me, was getting a little long on the tooth, and wanted to sell his cows. Long story short, Andy had two magnificent donor cows, like me and Andy - they were a little long on the tooth as well!! When we flushed them to Jackson, we got 31 heifers and our herd bull Blackfoot.

Golden Dawn Nalene

REGISTRATION # 4735114

Our very first Golden Dawn Cavill daughter that we have to offered! And what a job Cavill has done! HomoPolled, blood red color, calving ease supreme. The older you get, the more important calving ease becomes. We were very fortunate to have walked Crossroad Radium for a number of years but Cavill "trumps him" in every area! Treasure granddaughter bred for a polled calf.

Treasure - Maternal Grand Dam

Golden Dawn Naida

REGISTRATION # 4735113

A full sister in blood to 59N. Like her full sister Nalene, Naida is polled, solid colored, dark red and just as sweet as a price of pie. Another of Cavill's strong attributes is his ability to consistently sire strong males and strong females! Like her sister Nalene, both have a 50-50 chance of a homo-polled calf!

Golden Dawn Nama

REGISTRATION # 4735115

Good females usually have a good mother or grand mother, Nama has both! The grand mother Miss Molson 170B was purchased in last year's sale by Cody Copeland (I think he knows a little bit about Fleckvieh). Cody told me that he owns one Fleckvieh cow and it is Miss Molson. Three of our very best heifers, born last summer are either daughters or grand daughters of 170B.

Golden Dawn Naava

REGISTRATION # 4735109

Naava 03N is a maternal sister to last year's $25,000 top selling female much like her sister, Naava's conformation keeps getting better everyday and by sale day my guess is that you will not recognize her. Her grand sire, Dirty Harry, was a bull that took the Canadian Fleckvieh world by storm a number of years ago. We always wanted a son but did not want some of the issues. We were thankful that Josey came to us as a proven bull. And is by out of the same cow as Colossal, the sire of Classic! We have ¾ brother to Naava that we are retaining, that has the potential to be our number one herd bull, down the road.

K305

REGISTRATION # 4315310

K305 is sired by Gonzo, the best son of Crossroad Radium that we raised. After we used him we sold him to Paul and Lori Gergon then after we realized how good of sire he was, we purchased him back. He just happens to be out of the same cow as the 27K cow that is selling in this sale.

Sire

Skywest Joice - $28,000
daughter of Voltage

The cow is the most efficient piece of ecological engineering ever handed to a farming country.

She converts land that grows nothing else into the most complete food a human can eat. She fertilises the field she stands in. She improves the soil. She takes the by-products of six other industries and turns them into steak. She reproduces herself annually at no cost.

No lab-grown alternative comes close. No plant-based substitute matches her nutrition. No policy has ever procuded a piece of equipment that does what she does for free.

You can't eat grass. She can.

You can't eat straw. She can.

You can't eat what's left when rapeseed is pressed for oil. She can.

You can't make B12. She can.

A tractor can't work that slope. She can.

A fertiliser bag can't hatch a dung beetle. She can.

She takes 0.6kg of human-edible protein and hands back a kilo of it, better than what went in.

Our daughter's family had a great summer winning seven of eight jackpots and Aksarben. The resemblance to Kaw-liga is undeniable!

Lonestone's 2 year-old dam
pictured 1 week after weaning

We continue to receive calls for black and black baldie bulls, that are either half or three quarter Fleckvieh. We want the cattle, that we raise, to be the best whether they are Fleckvieh or black.

This year we will be retaining 25 black bulls and 50 Fleckvieh bulls.

First come, first serve.

HOMO POLLED NON DILUTOR FULL FLECKVIEH

Einstein is another thick butted, brockle-faced Theory son. These bulls are like peas in a pod. Theory adds so much pigment, muscle and hair to his sons, it is hard to tell them apart sometimes. Theory is dark liver red, infact we've had people think he is black! Einstein is the youngest fleck bull in the sale and comes from a beautiful uddered daughter of our 19B cow and Phantom. 19B put numerous powerful, high selling sons through the sale and Phantom is the bull that built the foundation for our fleckvieh program today. Einstein would work well on a group of heifers or young cows.

Einstein's son working at
Black Gold Simmental

Our most recent herd sire aquistion.
Homo-polled, 100%, proven calving ease.

Grant told me that he has calfed out 40 Einstein calves each of the last three years, and has yet to touch a calf!
