

Golden Dawn "No Doubt"

Welcome to the Sale

Please accept this as your personal invitation to join us on November 20, 2021 for our third bred female sale. Before discussing the offering, we would like to take a moment to say thank you to everyone who has had a hand in our operation, in any way, shape, or form.

And also a special thank you to all of our past customers. Whether it be bull buyers, sale buyers and bidders, and also private treaty buyers. Because of you – I get to do what I absolutely love to do! Breed and raise Fleckvieh. The demand for high quality Fleckvieh continues to surge and it is a global demand we are experiencing. Not only in Canada and Mexico but also Australia, China and South Africa. We are humbled and thankful.

We will be offering an exceptionally strong set of females. The last two years we have calved out over 85 two year old heifers. In addition to 85 heifer calves born this year and we are expecting just over 100 heifer calves in 2022. Our pipeline is full of young females and overflowing! We must make room. Many of these cows have daughters in our herd and several have been donors. Opportunities of great proportions. We encourage farm visits.

We sell our bulls off the farm 365 days a year. Ninety percent of our bulls sell between \$3,000 to \$5,000 and the top 10% are \$7,500 to \$10,000. These cows are bred to produce those bulls.

We will help arrange delivery and hope to see you on sale day! Be sure to come early enough for dinner. Betty and Marleen make the best hot beef with mashed potatoes and gravy in the world!

If you are unable to attend the sale, please watch on DVAuction. I am certain there will be some great buys throughout the entire sale!

Thank you!

If for some reason you are unable to attend the sale, please call and tell us what you are looking for and we will buy for you with a 100% satisfaction guarantee.

~Thank you!

Stanley, (563) 419-2444

Lilli-Marlen

Lilli-Marlen was the result of a frozen embryo imported to Canada. Sired by the proven meat sire: Balist and mothered by Lilli considered to be one of the best cows in Germany. Earlier the German cattle were selected for beef, dairy and draft. That is important as it required a lower set, very strong animal with great feet and legs. The picture of Lilli-Marlen is a testament. She was a prolific producer of quality offspring.

Kerstin

Kerstin was Lilli-Marlen's most coveted daughter commanding \$45,000 as an open heifer calf. We were fortunate to be able to purchase half interest in Kerstin as a twelve year old cow. Kerstin was our first "Big League" donor and contributed mightily until she was 17 years old. We still have two daughters that are available for purchase in the 1D sale section.

DDD Stacey Mac

Stacey also came to us as a proven generator of quality offspring. Also a straight German pedigree Stacey is sired by Westdrums Andrew who also sired Helga 10Y, Anchor T Emmy and also Ms West Patty the mother of our Treasure cow. Stacey's dam is sired by Balist who was also the sire of Lilli-Marlen, coincidence? I think not! Stacey has donors in the states and also Canada. Stacey was also low set, thick and strong. She also was 100% German. There will be several of her daughters available in the sale in the 1D lot.

Sweetie Stacey Mac X Seigfried

Prefection Stacey Mac X Yuma

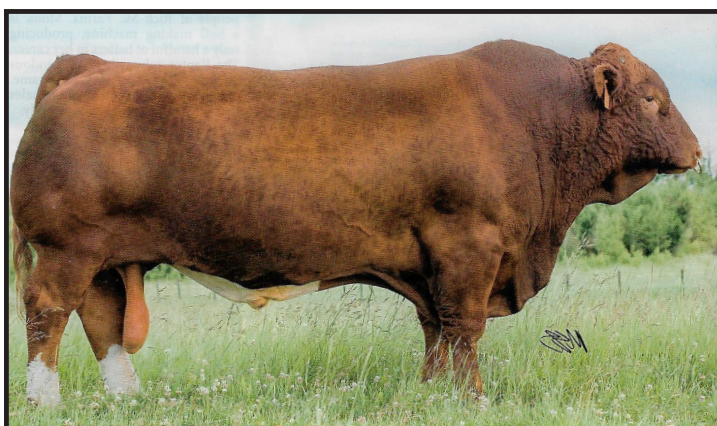

Treasure Dam of Lot 1A

Last year we offered several picks of our herd, which was a great success so this year we have expanded that by adding two more lots. Lot 1A will be choice of 20 Treasure daughters. The oldest would be three year olds.

Treasure's production has "set the bar" very high. Spitfire was the first bull calf that Treasure produced and he has been a true breed improver. Treasure adds disposition, color, feet and legs and, udder and teat qualify on a very consistent basis. Treasure's off spring are almost always in the top 20% of the herd. And the 20 plus daughters that we have in production are having a huge impact on our herd, which in turn allows us to offer females in this sale that would not normally be available. Treasure is the most productive producer of excellent progeny that I have ever witnessed. And is passing that along to her daughters. A very rare genetic opportunity right here. Treasure daughters will not be available for selection in the 1B, 1C lots. Help yourself!

* A Treasure daughter produced one of the feature bulls in this years DoubleBar D bull sale. Quite a feat when they catalog 170 bulls!

DOUBLE BAR D SPITFIRE 20X

FIRST SON OF TREASURE WAS SPITFIRE

“

Double Bar D Spitfire was the bull that got us where we are today. We've had tremendous feedback from cattlemen who have both sons and daughters running in their herd. Our Spitfire daughters are the deepest, quietest and have the best udders on our farm. Spitfire was a doll to work with and his progeny are no different. Top that off with them being big footed, well-muscled, and having large testicular development, the Spitfire sons have left their mark and continue to do so. His genetics are wide spread throughout the country including being the sire to Starwest Bryck and Total Value who have both made quite the impact on Simmental industry. We have never had such confidence in a herd sire as we do with him. Unfortunately, he had to be put down a couple years ago but we continue to use his genetics in our herd and his calves are always highly anticipated.

”

— Starwest Farms
Calmar, Alberta

***PLEASE NOTE:** Should any female selected have a calf at side, that will not be included in the sale price and will remain property of the Martin's.

No Treasure daughter may be selected in Lot 1B or Lot 1C.

Golden Dawn Heaven

REGISTRATION #: 3947124

In last years calf crop, were two really outstanding Titan daughters. I made my mind up early that we would offer one and keep one. We do have a younger sister to this one, but not the other one, hence, 763ZH becomes available. She has an elegance that you don't often see. We calved our first Titan females this year and they are great momma cows. 763ZH will likely start the sale. Be Prepared! I promise she will make your herd sire look good! P.E. 5/2/21 Balboa.

Golden Dawn Sophie

REGISTRATION #: 3927804

We have always gotten along well with Sophie's sire Smithbilt Molson. Calving ease, great feet and legs, good udders and many are dark red. Sophie and her dark red Titan bred heifers will be two of this years sale features. It is hard to let females of this caliber go, but you have to sell something and I know who ever buys these two are going to be very happy campers! Cows are only as good as what they produce and Sophie's daughter that is selling is true testament. As is her 2021 heifer calf. P.E. May 2 No Doubt

This dark red, well pigmented daughter of Radium has a very special mother and grand mother hat both came from our good friend Gary Cooper from Colorado. Gary also also shared Kerstin with us. We like Gary! One of the finest gentleman that you will every meet. But, getting back to this heifers mother and grand mother, each and every time they raise a top end calf. As a matter of fact 250H maternal sister is pictured in lot 1B section of pick of the herd. She would be the polled Titan heifer who like 250H has all the bells and whistles! P.E. 5/2/21 Balboa.

Golden Dawn Hayden

REGISTRATION #: 3927800

Hayden another great female with a stellar pedigree. The ASA makes us DNA all of our donor cows and any bull used AI. The last DNA from what I got, had boxes to check for twelve different genetic defects. To the best of my knowledge 100% Fleckvich carry no known genetic defects. Where did all these genetic defects come from? What this means is that 100% Fleckvich are one of the purest of beef genetics you can use. And if you use a 100% Fleckvich bull you should not see a calf with a genetic defect. However they could be carriers depending upon the mother genetic make-up. I have raised Fleckvich since the 70's and have never had a genetic deformed calf. P.E. 5/2/21 Balboa.

COPYCAT'S SON

The early years...

Born in 1947 the youngest of seven children. We milked 40 cows and bottled our own milk and delivered it, door-to-door in town, before school each morning. We also had 30 sows and 200 laying hens.

My mother taught Sunday School in German and milked cows by hand in the morning and delivered my 10 pound brother that same afternoon. Mother would make butter and cottage cheese every Saturday morning.

My father owned one of the first small square balers in our county—so custom baling was a way of life. When I was 13 years old, I was old enough to drive the tractor to bale hay. Each and everyday (that is was fit) we baled hay all summer long and into the fall. Dad would come and get me out of school to bale hay. I got so tired of baling that I never wanted to see another cow!

For my freshman FFA project I purchased two registered Hampshire bred gilts. One for \$67.50 and the other for \$75.00. Little did I know where that would take me! When I graduated from high school in 1965, the choices were Viet-Nam or college. Neither of which appealed to me! My first year at Iowa State University one of my pigs set the world record for loin-eye, size 9.13 sq. in.

As a sophomore, I won the collegiate livestock judging contest, which consisted of beef cattle, hogs, sheep, and horses. Four classes of each, with four in a class. We also had to give oral reasons for two classes of each species. So you had to remember what you had seen! I had never judged horses or sheep before I got to ISU. It was a proud moment for me!

Dec. 1, 1969 — was drafted into the United States Marine Corp., and on Dec. 29, 1969 my father died unexpectedly of a brain aneurysm.

July of 1971 — showed my first National Champion boar - Linebacker was named Reserve Grand Champion Hampshire boar at the National Type Conference held in Madison, Wisc.

In July of 1972, another breeder and I paid \$11,000 for a boar we named Lumberjack. A world record at the time. Some of the folks in Postville thought I had lost my mind! In August 1972 I went out one morning and one of Lumberjack's testicles was swollen up the size of a basketball! I had only gotten two gilts bred to him prior to. That testicle had to be removed and fortunately he was only lost for one breeding season. From Lumberjack's first litter we put two boars in the test station. One sold for \$5,500 and another for \$3,500.

In 1973 we bought the \$7,000 National Champion Iron Horse. From his first litter (when mated to a Lumberjack daughter) came Powerful — who was a National Champion and sold for \$11,000 to Japan.

In 1974 — was named Master Seed Stock Producer.

In 1981 we purchased a boar we named Kaw-liga that impacted the Hampshire breed like non-other. Each year the Hampshire Assoc. ranked the top boars. In 1985 Kaw-liga was the number one ranked boar with point total of 319, the next closest boar was 86! When we would take our cull barrows and gilts to the buying station, I was told (by several buyers) that these were the best pigs that he bought! Judged national shows here and abroad.

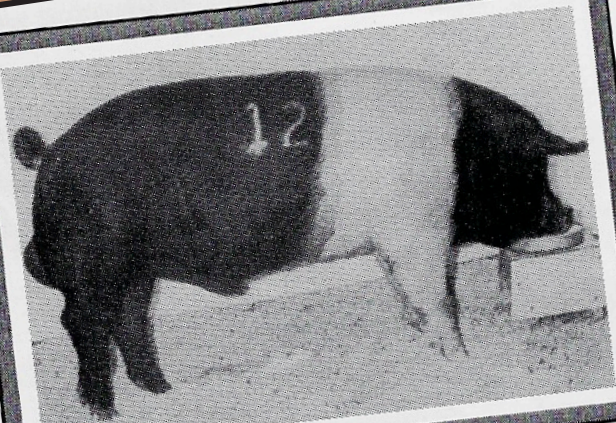

In the early 1990's our herd was twice decimated with psuedorabies. As hard as it was we had to give it up.

We had a handful of Simmental cows in the 70's, even had a direct French and Swiss import (through Canada). Went to the Bar 5 sales. Still good friends with the ageless Wilf Davis—a wonderful man. But if you wanted “unsugar coated” information, you talked to Neil Moffatt, who on many occasions, helped me bring Fleckvieh from all over Canada. We love you Neil! Those two were Bar 5! Alvin, our herdsman, is to our operation much like what Neil was to the Bar 5 operation, the guy that does all the work!

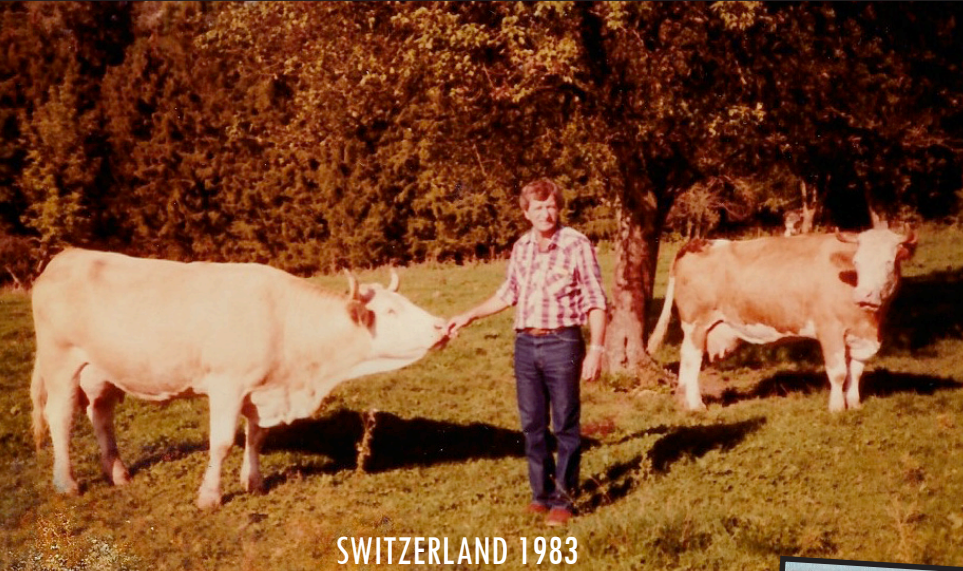

There is absolutely no doubt in my mind that the Fleckvieh herd we have today is bigger and stronger than our Hampshires of the 70's and 80's.

I was not born in the spotlight, but I have paid my dues. I would like to take this moment to thank everyone and anyone that I have met along this great journey.

Thank you,
Stanley

Junior And Grand Champion Boar
1981 Iowa State Fair
 Purchased from Steve Aase by Stanley Martins for \$5,750, this boar, renamed Kaw-Liga, was one of the most influential sires within the decade and led the Hampshire Elite Sire rankings for five consecutive years.

SWITZERLAND 1983

Louisville Barrow Show
Purebred Hamp Sweeps On Foot Competition
Grand Champion Barrow-Open Show
 The overall winner in the all-breed competition at the 1983 Louisville Barrow Show was the Champion Hampshire barrow. The purebred barrow was exhibited by Stanley Martins, Golden Dawn Farms, Postville, IA.
